If you have multiple production meters on your system, please provide an initial reading and a description (e.g. ['1' '2' '3'], ['North' 'South'], ['Wind' 'Solar']) for each meter.

Meter Description: _____

Reading: _____ kWh

Meter Description: _____

Reading: _____ kWh

Meter Description: _____

Reading: _____ kWh

Meter Description: _____

Reading: _____ kWh

Data Release Consent

In order to assess the energy, economic, and environmental impact of the program, SRC will require periodic readings from your production meter for the next ten years. You will be asked to submit these readings on a quarterly basis. Submissions by e-mail are preferred, but a phone message or fax are also acceptable. The meter reading, or a photo of the meter with the reading shown, along with the date of the reading is required. Meter readings may be submitted to the same address as this Request for Rebate form indicated below. Reminders will be sent at the end of each quarter asking for your meter reading.

Meter reading data will be kept confidential and reported publicly only in aggregate form. No further release or disclosure of the results will be made except in accordance with the provisions of *The Freedom of Information and Protection of Privacy Act* and as may otherwise be required in accordance with applicable law.

By participating in the Net Metering Rebate Program, you consent to the collection and use of production meter data as outlined above.

_____, 20____
Submission Date

Signature of Applicant

You must print, sign and fax, e-mail or mail in your Request for Rebate to:
