

PTP-MAL

Proficiency Testing Program for
Mineral Analysis Laboratories

Proficiency testing provider
accredited by the Standards Council
of Canada for ISO/IEC 17043

www.ccrmp.ca

Certificate of Successful Participation in Proficiency Tests Saskatchewan Research Canada - Geoanalytical Laboratories

Saskatoon, Saskatchewan, Canada

has been assessed "Satisfactory" for test samples in

September 2021 cycle

for*: **Cobalt**¹ **Copper**² **Gold**³
 Lead² **Nickel**² **Palladium**³
 Platinum³ **Silver**¹ **Zinc**²

*General description of analytical methods applied (refer to the performance report for more details).

1. Two acid digestion with ICP mass spectrometry measurement.
2. Two acid digestion with ICP optical emission spectrometry measurement.
3. Lead collection fire assay with ICP optical emission spectrometry measurement.
