

Sample Amount Required for Cannabis Testing

Test	Rush Turn Around (with prior approval from SRC)	Amount of Flower Required	Amount of Oil Required
Potency	2-3 days	10 g	5 mL
Metals	2-3 days	5 g	5 mL
Microbial Analysis	3-4 days	10 g*	10 mL*
Aflatoxins	2-3 days	10 g	10 mL
Pesticides	3-4 days	10 g	10 mL
Residual Solvents	2-3 days	N/A	5 mL
Health Canada Package	5 days	30 g*	30 mL*
Cannabinoid Profile	2-3 days	10 g	5 mL
Terpene Profile	2-3 days	10 g	10 mL
Loss on Drying (Moisture)	2-3 days	10 g	N/A
Water Activity	1-2 days	5 g	5 mL
Rancidity	1-2 days	N/A	5 mL

* Microbial analysis is performed to meet the USP 2023 specifications. If another specification (such as EP) is required, the sample amount required may vary. Contact the laboratory if an alternative specification is required.
